Pumpkin Crop Reminders
Continue Powdery Mildew control especially if you have not applied control measures within the last 10 days.
Remember, Section 18 for Nova 40W in OH for Powdery Mildew
If Anthracnose is detected, spray Bravo or maneB. The Columbus area was extremely wet from Aug 18 - 26. Some fruit showing phytophthora fruit rot. If you been wet, consider adding Ridomil to the spray program.
Cucumber Beetles: In late summer and as fruit get closer to mature size and ripen, beetles can feed on rinds. Scout for beetles and rind damage. I have already seen a little feeding on the rind in Columbus. Materials for control are: Sevin XLR, Thiodan, Asana, Ambush or Pounce. Check the label or the OH Vegetable Production Guide for rates and application directions.

TOMCAST and BLITECAST Update
DSV Hotline 800-228-2905
Jim Jasinski

TOMCAST DSV, BLITECAST SV, Report.

July 28: 0, 0, 0;
July 22: 0, 0, 0;
July 15: 0, 0, 2;
July 8: 2, 0, 1;
July 1: 3, 22, 11.
Variegated cutworm pheromone,
August 11: 12
August 4: 10;
July 28: 6;
July 22: 7;
July 15: 9;
July 8: 6;
July 1 5 4
Information concerning TOMCAST DSV and BLITECAST SV can be found on DTN & FarmDayta networks under both the Ag and Produce sections

Crop Reports
Ron Overmyer

North Central
Heinz tomato harvest was expected to begin on Wednesday, August 27th. Growers report that tomato harvest began in the southern Indiana about 10 days ago (Aug. 17). Warm weather is needed to ripen the crop. Pickling cucumber harvest has a week or two left. Some workers are returning back home. It should be a very good pickle year for most growers. Cabbage harvest is still continuing and looks good at this point. A local field representative reported Stewart’s wilt in late planted sweet corn. The disease has really reduced yield. Powdery mildew, alternaria leaf blight and fruit scab are present in some fields but basically the fields look good.

Vegetable Crops Calendar
Updated as of September 4, 1997
Ron Overmyer
September, 1997
16-18 Farm Science Review, Molley Caren Agricultural Center, London
18. 8:00 a.m., Processing Vegetable Breakfast Meeting (invitation only), Kauffman's Restaurant, Bowling Green, Oh. Contact: Ron Overmyer, 419-334-6340
